

JUST ADD MOSI...

Need to inject some STEAM (Science, Technology, Engineering, Art, and Math) in your event? Just add MOSI! We offer interactive stations and larger than life demos for your event. Activities are fun and engaging for all ages!

SCIENCE • TECHNOLOGY • ENGINEERING • ART • MATH

Interactive Stations

Short interactions for small groups! Each hands-on 5-10 minute activity can engage up to 10 people at a time, up to 120 people per hour.

Rocket Launch – Design, personalize, and launch your rocket at the target! Take-away rocket included. This program needs a large space to launch rockets.

It's Electric – “Spark” your curiosity about electricity by touching our hair-raising Van de Graaff generator! Investigate conductors and insulators at this hands-on station. This program needs access to electricity.

Robot Challenge – Program a robot and complete the challenge of the day! Will your robot dance, race, score, or drive?

Telescope-To-Go – Set up a skywatch at your site! Your guests will observe the nighttime sky, including stars, planets, nebulae, and the Moon. This program must be scheduled at least 15 minutes after sunset and is weather dependent.

Mini-Demos

Don't try this at home! Our MOSI scientists will amaze and engage with larger than life demonstrations. Each show is 20 minutes and can engage up to 100 people at a time, 200 people per hour.

Rocket Science! – MOSI rocket scientists will fuel up and launch explosive rockets right at your event!

Cryo-Cool – MOSI cryo-scientists will freeze, boil, condense, shrink, and crush objects before your very eyes! Using liquid nitrogen is the super-cool way to learn about the states of matter.

Air Power – Discover the highs and lows of air pressure and how it affects our weather.

Colorful Chemistry – Explore the rainbow of chemical reactions. Discover what gets hot or cold and what changes colors!
