

## JUST ADD MOSI...

Need to inject some STEAM (Science, Technology, Engineering, Art, and Math) in your event? Just add MOSI! We offer interactive walk-up stations and larger than life demos for your event. Activities are fun and engaging for all ages! With guests free to come and go, these are an excellent choice for an afterschool STEAM night, marketing event, festival, and more!

### INTERACTIVE STATIONS

Short hands-on interactions to supplement your large event! Each activity can engage approximately 10 people/10 min on repeat, giving all your guests plenty of time to explore!

**Rocket Launch** - Design, personalize, and launch your rocket at the target! Take-away rocket included. This program needs a large space to launch rockets.

**It's Electric** - "Spark" your curiosity about electricity by touching our hair-raising Van de Graaff generator! Investigate conductors and insulators at this hands-on station. This program needs access to electricity.

**Robot Challenge** - Program a robot and complete the challenge of the day! Will your robot dance, race, score, or drive?

**Telescope-To-Go** - Set up a skywatch at your site! Your guests will observe the nighttime sky, including stars, planets, nebulae, and the Moon. This program must be scheduled at least 15 minutes after sunset and is weather dependent.

### MINI-DEMOS

Don't try this at home! Our MOSI scientists will amaze and engage with larger than life demonstrations. Each mini-show is 15 minutes on repeat and can engage up to 100 people at a time, 200 people per hour.

**Rocket Science!** - MOSI rocket scientists will fuel up and launch explosive rockets right at your event!

**Cryo-Cool** - MOSI cryo-scientists will freeze, boil, condense, shrink, and crush objects before your very eyes! Using liquid nitrogen is the super-cool way to learn about the states of matter.

**Air Power** - Your audience will hear, feel, and even "see" the power of air when MOSI scientists demonstrate the highs and lows of air pressure.

**Colorful Chemistry** - Explore the rainbow of chemical reactions. Discover what gets hot or cold and what changes colors!

#### Pricing and Reservation Information

- \$325 per activity for up to 2 hours. Add extra hour(s) for \$50/hour for each activity.
- Travel fees apply for sites more than 15 miles from MOSI.
- Site must provide an appropriate and safe space.
- Full payment is required at least 2 weeks prior to use for the duration of the activities to program date.
- A \$50 deposit or letter of intent is required for reservation.
