

WINTER BREAK CAMPS 2025-26

Program Fee - \$199 • MOSI Member Fee - \$160
No afternoon extended care on 12/24 or 12/31

Week 1 - December 22nd – 24th, 2025 (3-Day Camp)

Winter Workshop - Kindergarten – 1st Grade

Step into a festive wonderland of creativity in this special three-day holiday camp! Young makers will design and craft their very own seasonal creations, from handmade ornaments and decorations to thoughtful gifts they can share with family and friends. Each day brings a new hands-on project filled with sparkle, color, and imagination. Campers will explore different materials and techniques while learning the joy of giving through their handmade treasures. With plenty of holiday cheer, music, and creativity, this workshop is the perfect way to celebrate the season and create keepsakes that last a lifetime.

Winter Waves: Ocean Adventures Camp - 2nd – 4th Grade

Dive into the chilly wonders of the ocean this winter break! In this 3-day camp, young explorers will discover how the mysteries of the deep sea connect to the frosty season on land. Campers will investigate icy polar oceans, experiment with the science of blubber and insulation, and learn how marine animals survive in cold waters. Through hands-on science activities, creative crafts, and interactive games, students will explore ocean currents, sea ice, and even design their own “winterized” sea creatures. Each day blends exciting marine biology and oceanography with a festive winter theme—making for a camp that’s as cool as it is unforgettable!

Frame by Frame - 5th – 8th

Let your creativity shine as you create your very own winter story using frame-by-frame animation! Explore the art of storytelling and animation as you build props, sets, and characters that will bring your ideas to life. Add foley and experiment with green screen effects to enhance your stop-motion masterpiece!

Week 2 - December 29th – 31st, 2025 (3-Day Camp)

Snowy Structures and Cool Creations - Kindergarten – 1st Grade

Put on your engineer’s hat and get ready to build, create, and explore! In this camp, young learners will design simple structures, test out fun building challenges, and discover how things work through hands-on activities. From towers and bridges to moving machines, campers will use their creativity and problem-solving skills to bring their ideas to life.

Cosmic Snowflakes - 2nd – 4th Grade

Blast off into a frosty universe of discovery this winter break! In this 3-day camp, young astronauts will explore the mysteries of outer space with a fun winter twist. Campers will investigate icy comets, design their own space rovers to travel across “frozen planets,” and experiment with the science of stars and constellations. Each day is packed with hands-on science activities, creative crafts, and out-of-this-world fun. From exploring the frosty rings of Saturn to creating glowing “star jars,” campers will experience the wonders of space while celebrating the magic of winter.

Digital Design Lab - 5th – 8th Grade

Bring your ideas to life as you dive into the world of computer graphics! In this camp, 5th–8th grade creators will explore digital tools to design, draw, and experiment with different styles of art. From bold designs to unique digital masterpieces, you’ll develop new skills while expressing your creativity. At the end of camp, showcase your work and wow your family and friends with your artistic talent.
